# Colocating in Downtown Toronto is Now More Affordable than Ever

Value-Driven Colocation for Your Clients

At Amanah, we understand that business managers are under continuous pressure to deliver more value at lesser costs. That's why we were driven to find a way to provide businesses with cost-effective colocation solutions, where they need to be – **in downtown Toronto**.

Directly connected to our data center space within 151 Front Street West, on a network from multiple Tier 1 providers that's both lightning-fast and ultra-reliable, our new location at **1 Yonge Street** provides you with the key elements of a telco hotel data center space - proximity to cross connections and internet exchanges - without the premium prices.

Partner Options & Pricing

Amanah understands that every business has its own requirements. We offer four standard colocation options, but for customers requiring additional security for your data and equipment, **space is available for private cages**.

Shared 1U	Private ¼ Rack	Private ½ Rack	Private Full Rack
$99/Month (on a 1yr Term)	**$499/Month** (on a 1yr Term)	**$799/Month** (on a 1yr Term)	**$999/Month** (on a 1yr Term)
One-time Set-up Fee $99	One-time Set-up Fee $499	One-time Set-up Fee $799	One-time Set-up Fee $999
Migrating to colocation for the first time? Need a small space for your most critical servers, or Disaster Recovery? Our 1U space options provide the ultimate flexibility to add as you go.	Need a small, secure space for an initial deployment, or a bit more as you grow? Amanah's Secure ¼ Racks are the perfect solution for scalability and complementary space needs.	The essential solution for businesses who don't need a full rack, but need to have the same security levels a full rack provides.	The ultimate in security, flexibility and convenient colocation. Amanah full racks are all 44U, giving you that extra little bit of valuable space that's missing in our competitors' offers of 42U.
✓ 1U ✓ 1 Gig Uplink ✓ 100 Mbps (30 TB) Bandwidth ✓ 110V 1 Amp Power ✓ 8 IPs (/29) – 5 usable ✓ Secure VLAN ✓ Access by scheduled visit	✓ Quarter Rack - 10Us ✓ 1 Gig Uplink ✓ 100 Mbps (30 TB) Bandwidth ✓ 110V 20 Amp Power ✓ 8 IPs (/29) – 5 usable ✓ Secure VLAN ✓ 24/7 Access	✓ Half Rack - 21Us ✓ 1 Gig Uplink ✓ 100 Mbps (30 TB) Bandwidth ✓ 110V 20 Amp Power ✓ 8 IPs (/29) – 5 usable ✓ Secure VLAN ✓ 24/7 Access	✓ Full Rack - 44Us ✓ 1 Gig Uplink ✓ 300 Mbps (100 TB) Bandwidth ✓ 2 x 110V 20 Amp Power ✓ 8 IPs (/29) – 5 usable ✓ Secure VLAN ✓ 24/7 Access

Private Cage Space Available!   **Zero-Latency Fiber Connectivity to 151 Front**

1 Yonge Colo Data Center

Located at the Toronto Star building at 1 Yonge St, our data center facility is minutes away from the Billy Bishop Airport, a short walk to Union Station, and has easy access to major highways coming into Toronto. Our waterfront location along Queen's Quay makes us one of the most scenic colocation hosts in the region. The 1 Yonge Colo data center can be utilized as a stand-alone, diverse bypass facility to the 151 Front data center, or can be leveraged as a natural extension with the diverse fiber ring connecting the two facilities. By linking the two downtown Toronto data centers, Amanah customers have the benefits of both.

LOCATION
