

**AMERICAN TOWER®**

# Edge Data Center

325 17th Avenue North, Jacksonville, FL 32250

## Property Information

**Site Name and Number:** DC – Jacksonville FL, 205588

**Coordinates:** 30.305117, -81.39615

**Asset Number:** 205588

## Strategically Located | Turnkey Infrastructure | Easy Deployment

The edge data center located at ATC Site #88442 in Jacksonville, FL is a local interconnection and colocation facility, providing a secure and reliable hosting environment for Customer's IT requirements. Our connectivity-enabled, multi-tenant, neutral-host data center facility is positioned to enable flexible and turnkey infrastructure environments for various use-cases.

ATC Edge Data Center – Jacksonville is located in the Jacksonville Beach area outside of Jacksonville, the most populous city and the fourth-largest metropolitan area in Florida. The site provides convenient access to Northern Florida businesses in popular industries, such as banking and financial services, logistics and transportation, media, technology, and military and defense.
