AtlasEdge LBA001
Data Centre

Powered by 3 MVA

AtlasEdge LBA001 Data Centre offers over 800m2 of secure resilient space.

Highly efficient carrier neutral data centre facility in Leeds.

AtlasEdge LBA001 Data Centre is located just 18 kilometre away from the nearest major airport, and connected via bus just 150 metre from this site.

This AtlasEdge Tier 3 aligned data centre offers state-of-the-art technology, resilience and 24/7 security and provides over 800 m2 of data centre space and alternative carrier routing.

With 3 MVA of power available the data centre will ensure you have the scalability of energy supply exactly when required.

Service excellence

- High level of reliability and resilience
- Consistent and efficient service delivery
- ITIL based service management methodology

Our team is responsible for the entire mechanical and electrical infrastructure at AtlasEdge Leeds Data Centre. This includes management of the data halls, capacity management, security, energy procurement and the programme of planned preventative and corrective maintenance work.

With a single point of contact, you can be sure of the highest level of service to support your data centre needs 24/7.
