**Managed IT Services**

# NEED TECH HELP? WE'RE IT.

## BlueBridge offers ALL the IT services your business needs, including helpdesk, network and server support, managed security, cyber awareness training, and more

Our IT services suite includes network systems monitoring, resource utilization monitoring, error reporting, patching and service level insights for applications. Managed security services protect you from internet intrusion, with services that include vulnerability assessments, firewalls, and load balancing.

BlueBridge Networks is centrally located in downtown Cleveland, serving enterprises large and small throughout the region. We are a 24/7/365 operation and we are fully staffed to serve your IT objectives. Reach out to us today to see how we can craft a custom solution for you.

**Features include:**

End user support

Network and system maintenance, design, and implementation

Proactive, monitoring-based support

Disaster recovery implementation and support

Storage support and implementation

24/7/365 availability
