Owned & Operated, Fully Redundant, Diverse Infrastructure & Managed Services

Cologix's NNJ2 data center is a purpose-built, single tenant facility providing scalable, next generation data center solutions. This state-of-the-art facility features high density options, redundant power and cooling, comprehensive security features flexible network infrastructure and managed services. With flexible power configurations and superior support services, this data center helps customers safeguard critical data while utilizing enterprise level IT solutions. This facility also offers disaster recovery suites.

Network Neutral Connectivity

NNJ2 provides connectivity via a carrier neutral facility with dual cable entrances. Through dark fiber via Cologix's Metro Connect, this facility is connected to all of the major carrier hotels in New York City and New Jersey including:

- 60 Hudson St., NYC
- 165 Halsey St., Newark, NJ

Why Cologix New Jersey?

Cologix New Jersey data centers provide enterprise-grade space, power, connectivity, and managed services to customers worldwide with round-the-clock technical support. About 30 miles outside of Manhattan and 280+ feet above sea level, Cologix New Jersey provides proximity to New York City for connectivity to key carrier hotels and geographic diversity. Above the FEMA 500 year flood plain, Cologix's data center remained safe, dry and accessible during all hurricanes and nor'easters, including Superstorm Sandy.
