Phoenix Sky Harbor Data Center

615 North 48th Street Phoenix, AZ 85008

DataBank's PHX2 Sky Harbor data center provides a 2N power design and N+1 cooling. The facility is a carrier-neutral interconnection hub with access to many on-site carriers and many Internet, fiber, and cross-connect options. We also feature multi-factor authentication and 7x24x365 staffed security.

DATABANK
Data Center Evolved™

Why DataBank?

DATA CENTER EVOLVED™

- The largest footprint of metros and data centers in the U.S. capable of putting your workloads within 50 miles of half the population.
- Colocation, interconnection and cloud services with contract portability to help you avoid lock-in to any one strategy.
- Managed security and compliance services that liberate your staff and secure your data and applications.
- 100% uptime guarantee, hands-on support, and a Portal that gives you unmatched visibility and control of your infrastructure.

Local Service. Boundless Reach.

Our **65+ data centers** are strategically located in **27+ markets** that offer high population densities as well as a concentration of technology business and research universities.

EACH DATABANK FACILITY FEATURES:

- Robust connectivity
- Highly redundant infrastructure
- Priority power grid access
- Strong structural security
- Secondary carrier hotel option
