

# Marseille

## Colocate your IT infrastructure at the heart of the content hub

Our MRS4 data centre will provide the latest secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions and cloud solutions. Located in the immediate vicinity of A55 highway, MRS4 will offer N+1 UPS power and 2N cooling, as well as alarm and monitoring systems.

### Facility

- 6,700 sqm of maximum equipable space
- Located in the immediate vicinity of A55 highway
- Three minutes walk from the bus stop
- N+1 redundant design architecture allowing maintenance operations with no service interruption

### Interconnection

- Direct access to submarine cables to Africa, the Middle East and Asia
- Direct access to France-IX, DE-CIX, Hopus, NL-ix, BBIX et NetIX IX exchange

- Triple-entry fibre into the building
- Access to more than 190+ connectivity providers
- Access to IP single homing or multi-homing on demand

### Services

- Cabinets, Cages and Private Rooms
- Remote Hands and Eyes: 24x7, 365
- Full range of Interxion connectivity
- Cloud Connect: establish private connections to multiple clouds Extendable to more than 100 data centres across Europe via a single service contract
- Control your encryption keys with Interxion Key Guardian
- Metro Connect : connectivity services between our Marseille data centres
- Close to the Marseille Port subsea landing solution

### MRS4 – at a glance

- Connected to Digital Realty campus Marseille's data centres
- Direct access to 16 submarine cables to Africa, the Middle East and Asia
- Access to 190+ connectivity providers and to France-IX, DE-CIX, NL-IX, Hopus, BBIX and NetIX
- 6,700 sqm of maximum equipable space
- Security staff on site 24x7, 365
- 20 MW grid connection
- Advanced fire detection and suppression systems

## MRS4: Technical specifications

<b>Power</b>	<ul style="list-style-type: none"><li>• 20 MW grid connection</li><li>• High-density power configurations up to 2.4 kW/sqm</li><li>• Up to 99.999% availability SLA</li><li>• N+1 UPS redundancy</li><li>• N+1 backup generators, supporting 48 hours autonomy at full capacity</li><li>• Full range of AC and DC output currents</li></ul>
<b>Controlled Environment</b>	<ul style="list-style-type: none"><li>• Very Early Smoke Detection Apparatus (VESDA)</li><li>• Inert gas fire suppression system</li><li>• Minimum N+1 CRAC redundancy per customer room</li><li>• Entire facility infrastructure monitored 24x7, 365 in real-time (Chillers, CRAC units, Fire Panels, Generators, UPS N+1 configuration)</li></ul>
<b>Security</b>	<ul style="list-style-type: none"><li>• Security staff on site with controlled access 24x7, 365</li><li>• Multiple physical security layers including CCTV, proximity cards, man trap and biometrics</li></ul>
<b>Customer Support</b>	<ul style="list-style-type: none"><li>• ISO 22301 Accredited for Business Continuity Management.</li><li>• ISO 27001/IEC Accredited European Customer Service Centre (ECSC) provides support in 13 countries according to the same rigorous standards:</li><li>• 24x7, 365 days facility and service monitoring in real-time</li><li>• Multi-lingual response (French, English, Spanish, German and Dutch)</li></ul>
<b>Energy efficiency</b>	<ul style="list-style-type: none"><li>• Guarantee of Origin certificates: 100% of power consumption produced from renewable resources</li><li>• Operated beyond the industry standards for energy-efficiency</li><li>• Installation of Cabinets in cold aisle containment</li><li>• River Cooling solution to avoid the use of chillers</li><li>• Phased modular architecture optimizes lower power usage effectiveness (PUE)</li><li>• PUE design of MRS4 is:1.23</li><li>• Interxion is compliant with the European Code of Conduct for data centres</li></ul>
