Chicago IBX® Data Center

Equinix Chicago Data Centers

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our Chicago data centers are business hubs for 895+ companies. Our customers here can choose from a broad range of network services from 195+ providers. They can also interconnect directly to customers and partners in their digital supply chain.

Chicago is one of the world's top global financial centers and home to three major financial and futures exchanges: the Chicago Stock Exchange, the Chicago Board Options Exchange and the Chicago Mercantile Exchange. Our strong relationships with these exchanges have helped make Equinix the preferred colocation center for financial services firms. Banks, trading exchanges, brokers, traders, clearinghouse merchants, market data suppliers and proprietary software vendors all interconnect on Platform Equinix®

Chicago Data Centers Benefits

- Proximity to one of the top ten global financial centers and the headquarters of many multinational corporations
- Dense concentrations of financial services companies, cloud service providers, content providers, IT service providers and enterprises
- Access a large number of CDNs
- Strong peering and network base to facilitate reliable content delivery to end user
- Strategic Midwest location ideal for business continuity and disaster recovery operations
