Philadelphia IBX® Data Center

Equinix Philadelphia Data Centers

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our Philadelphia data center is a business hub for 60+ companies, and customers can also interconnect directly to customers and partners in their digital supply chain. Equinix metro Philadelphia International Business Exchange™ (IBX®) data center offers approximately 26,500 square feet (2,475+ square meters) of colocation space.
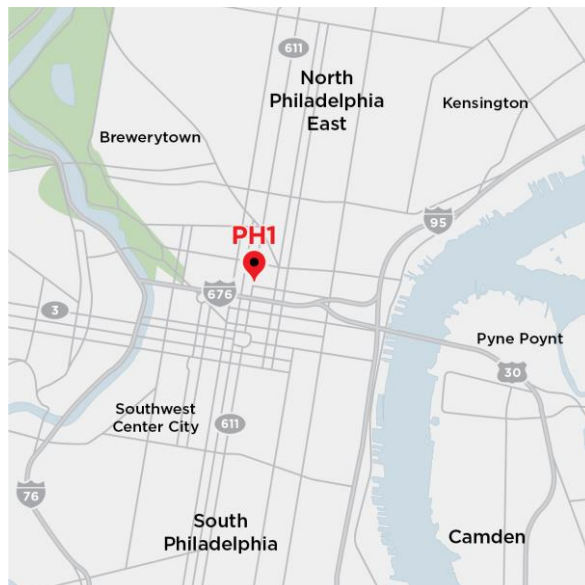

Our Philadelphia colocation facility offers a full array of premium data center and support services with extensive network choice and the ability to interconnect to a variety of business partners and customers.

Philadelphia Data Centers Benefits

- Centrally located between major communications hubs in Washington, D.C. and New York, providing a strategic location for business continuity and disaster recovery operations for east coast companies
- Dense concentration of healthcare, pharmaceutical, manufacturing and financial services firms
- One of the fastest-growing network traffic routes in the U.S.
- Located in a carrier hotel with a dense population of networks
