New York IBX® Data Center

Equinix New York Data Centers

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our New York data centers are business hubs for 1,115+ companies. New York customers can choose from a broad range of network services from 115+ network service providers. They can also interconnect directly to customers and partners in their digital supply chain. Equinix New York metro International Business Exchange™ (IBX) data centers consist of ten buildings with approximately 739,500 square feet (68,700 square meters) of colocation space.

The New York colocation facilities enable customers to be part of a rich industry ecosystem. The New York region features a high concentration of customers in the financial sector for cloud providers targeting financial customers (e.g., data analytics providers) and a dense concentration of ad-tech companies directly connecting on Equinix's Ad-IX® advertising exchange. Our New York data centers are located in Newark (NY1), Bergen (NY7), Secaucus (NY2, NY4, NY5 and NY6), Manhattan (NY9), Carteret (NY11) and Elmsford (NY13) and service many of the world's largest companies, including financial services firms, large enterprises and media organizations.

New York Data Centers Benefits

- Customer population comprised of many financial services firms, media companies and large enterprises
- Dense concentration of ad-tech companies directly connecting on the Equinix Ad-IX advertising exchange
- Large ecosystem of financial firms, content providers and 115+ networks in the Equinix New York data centers
- Low-latency connectivity to major stock exchanges and financial institutions

Building

Space	
Colocation Space	71,945 ft ² (6,684 m ²)
Building Type	3-story, steel concrete structure on slab metal, concrete face
Parking	Building parking (no charge)
Floor Type	Raised
Floor Load Capacity	100 psf (4.79 kN/m ²)
Seismic Rating	
Seismic Design Category	2B
Fire Protection	
Fire Suppression	Double-interlocked pre-action (dry pipe)

Facilities

Power and Cooling	
Cabinet Density	4.0 - 5.0 kVA per cabinet
Power Distribution	120V/208V
Utility Feeders	3
UPS Configuration	Parallel redundant
UPS Redundancy	N+1
Standby Power Configuration	8 x 2,000 kW and 1 x 2,500 kW diesel generators
Standby Power Redundancy	N+1
Cooling Configuration	Evaporative cooling refrigeration systems
Cooling Redundancy	N+1
Security	
Physical	Man trap entry
Human	24/7 on-site security officers
Electronic	PIN and card readers, CCTV surveillance with 90-day video retention, motion detection

Amenities

- Break Room
- Loaner Tools
- Crash Carts
- Work Kiosks
- Wifi
- Conference Room

Products and Services

Data Center

- Private Cage
- Secure Cabinet
- Secure Cabinet Express
