Dallas IBX® Data Center

Equinix Dallas Data Centers

Our growing Dallas campus provides a strategic hub for 690+ companies. Dallas customers choose from a broad range of network services from 155+ competing providers. These companies interconnect directly to customers and partners in their digital supply chain and leverage Equinix Fabric® to gain control over IT cost and performance issues.

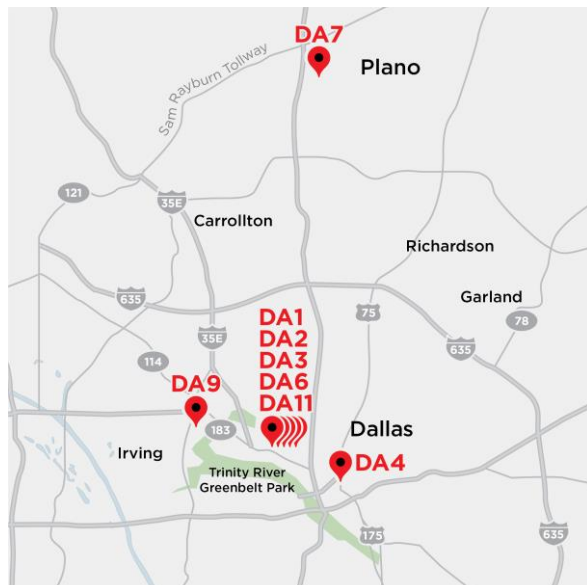

The Dallas-Fort Worth region has long been a major internet and network peering exchange point. Our Dallas data centers serve a high concentration of telecommunications companies and are a major communications hub for the southern U.S.

Dallas Data Centers Benefits

- The largest internet exchange by participants and traffic volume in the South-Central U.S.
- Mobile messaging and voice services hub
- Presence of multiple CDNs to improve end-user experience
- Access to mobile messaging and voice service hubs
- Access to Central and South American routes
- Close proximity to the 4th largest city by population – Dallas-Fort Worth
