Equinix Washington, D.C. Data Centers

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our Washington, D.C. International Business Exchange™ (IBX) data centers are business hubs for 1,360+ companies. Our D.C. customers can choose from a broad range of network services from 190+ providers. They can also interconnect directly to customers and partners in their digital supply chain.
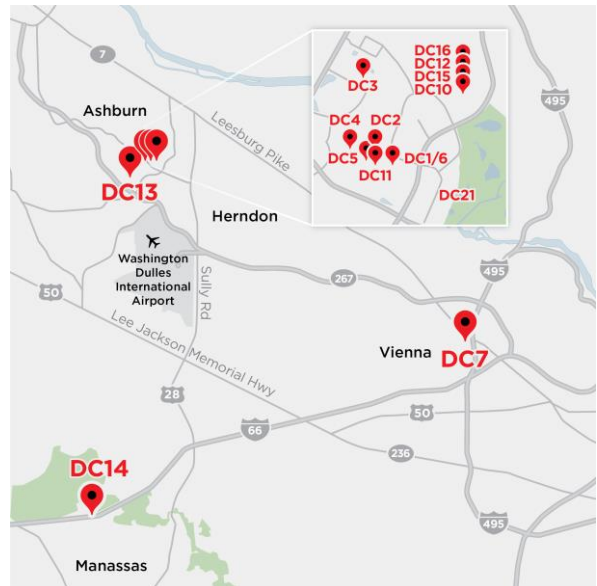

Our D.C. data centers, located in Ashburn, Virginia; Manassas, Virginia and Vienna, Virginia, are strategic communications hubs for the eastern United States. They're also a major communications gateway to Europe and the largest peering point in North America.

Equinix Washington, D.C. Data Centers Benefits

- Compliance with key federal regulations and industry standards
- Proximity to high concentrations of IT, telecommunications, biotechnology, federal government and international organizations in the D.C. area. Proven record for growth in colocation, network density and interconnectivity with room for expansion
- Retail and wholesale colocation options provide customers with flexibility in colocation options and cost
- Access to one of the top three peering and exchange markets, including the largest peering exchange on the U.S. East Coast
- Provides connections to key metro areas such as Chicago, New York and London
- Home to one of three GRX peering locations in the world
- Ashburn campus provides connectivity to AWS Direct Connect and Microsoft Azure through Equinix Fabric®

Building

Space	
Colocation Space	59,370 ft² (5,516 m²)
Building Type	2-story, tilt-up concrete slab on grade
Parking	Adjacent to building (no charge)
Floor Type	Slab
Floor Load Capacity	500 psf (23.94 kN m²)

Seismic Rating	
Seismic Design Category	A

Fire Protection	
Fire Suppression	Double-interlocked, pre-action system (dry pipe) with nitrogen purge

Facilities

Power and Cooling	
Cabinet Density	4.0 – 6.0 kVA per cabinet
Power Distribution	120V/208V
UPS Configuration	Block Redundant
UPS Redundancy	N+1
Standby Power Configuration	6 x 3,100 kW diesel generators
Standby Power Redundancy	N+1
Cooling Configuration	High efficiency, air-cooled chillers and custom air handling units with airside economizer
Cooling Redundancy	N+2

Security	
Physical	Man trap entry
Human	24/7 on-site security officers
Electronic	Biometric readers, fiber vault, CCTV surveillance with 90-day video retention, motion detection

Amenities

- Breakroom
- Loaner Tools
- Showers
- Crash Carts
