

EQUINIX

## Data Center Technical Specifications

# DC10

## Washington D.C. IBX® Data Center

### Equinix Washington, D.C. Data Centers

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our Washington, D.C. International Business Exchange™ (IBX®) data centers are business hubs for 1,360+ companies. Our D.C. customers can choose from a broad range of network services from 190+ providers. They can also interconnect directly to customers and partners in their digital supply chain.

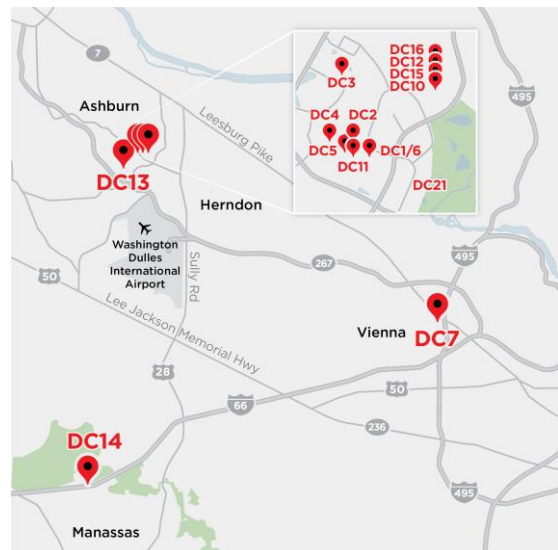

Our D.C. data centers, located in Ashburn, Virginia; Manassas, Virginia and Vienna, Virginia, are strategic communications hubs for the eastern United States. They're also a major communications gateway to Europe and the largest peering point in North America.

### Equinix Washington, D.C. Data Centers Benefits

- Compliance with key federal regulations and industry standards
- Proximity to high concentrations of IT, telecommunications, biotechnology, federal government and international organizations in the D.C. area. Proven record for growth in colocation, network density and interconnectivity with room for expansion
- Retail and wholesale colocation options provide customers with flexibility in colocation options and cost
- Access to one of the top three peering and exchange markets, including the largest peering exchange on the U.S. East Coast
- Provides connections to key metro areas such as Chicago, New York and London
- Home to one of three GRX peering locations in the world
- Ashburn campus provides connectivity to AWS Direct Connect and Microsoft Azure through Equinix Fabric®

## Building

Space	
Colocation Space	84,829 ft <sup>2</sup> (7,881 m <sup>2</sup> )
Building Type	1-story, steel structure, concrete recessed slab
Parking	Adjacent to building (no charge)
Floor Type	
Floor Type	Raised
Floor Load Capacity	400 psf (19.15 kN m <sup>2</sup> )
Seismic Rating	
Seismic Design Category	A
Fire Protection	
Fire Suppression	Double-interlocked, pre-action (dry pipe)

## Facilities

Power and Cooling	
Cabinet Density	4.0 – 6.0 kVA per cabinet
Power Distribution	120V/208V
UPS Configuration	2N for Business Suites/block redundant for Private Cages
UPS Redundancy	2N for Business Suites/N+1 for Private Cages
Standby Power Configuration	10 x 2,500 kW diesel generators
Standby Power Redundancy	N+1
Cooling Configuration	Roof top units with air-side economizers
Cooling Redundancy	N+1
Security	
Physical	Man trap entry
Human	24/7 on-site security officers
Electronic	Biometric readers, CCTV surveillance with 90-day retention, motion detection

## Amenities

- Breakroom

## Products and Services

### Data Center

- Private Cage with 20+ cabinets and 100+ kVA draw cap
- AC Power Circuits
- Antenna
- Equinix Flex Space
- Business Suites in 281 kVA increments

### Interconnection

- Equinix Fabric®
- Equinix Internet Exchange®
- Equinix Internet Access
- Metro Connect®
- Cross Connects
- Campus Cross Connect
- Fiber Connect

### Digital Infrastructure

- Equinix Metal®
- Equinix Precision Time®
- Network Edge

### Services

- [Smart Hands®](#)
- Equinix Smart Build
- Equinix Smart View
