Culpeper IBX® Data Center

Equinix Culpeper Data Centers

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our Culpeper, Virginia, International Business Exchange™ (IBX) data centers are strategically located 60 miles from Washington, D.C., and are ideal for government agencies looking for state-of-the-art security. These buildings are part of one of the most secure and technologically sophisticated data center facilities in the Eastern U.S.

The Culpeper campus is a key location for federal IT initiatives and the federal cloud market, which is projected to grow at a compound annual growth rate of 10.9% from 2021 to 2023. The campus includes four data center buildings, making it a physically redundant facility built for reliability and designed to exceed the needs of government agencies and enterprises in a digital age.

Culpeper Data Centers Benefits

- A highly secure and reliable, carrier-neutral environment to deploy computing, network, storage and IT infrastructure
- A secure bunker in every IBX designed to provide public-sector clients colocation space that meets government standards
- Campus cross connectivity among our four colocation sites in Culpeper
- Multi-layered, armed guard security, including a roving perimeter and building security guards
- Easy access to Continuity of Operations (COOP) environments, a federal government initiative to keep agency IT operations running essential functions under a broad range of circumstances
