New York IBX® Data Center

Equinix New York Data Centers

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our New York data centers are business hubs for 1,115+ companies. New York customers can choose from a broad range of network services from 115+ network service providers. They can also interconnect directly to customers and partners in their digital supply chain. Equinix New York metro International Business Exchange™ (IBX) data centers consist of ten buildings with approximately 739,500 square feet (68,700 square meters) of colocation space.

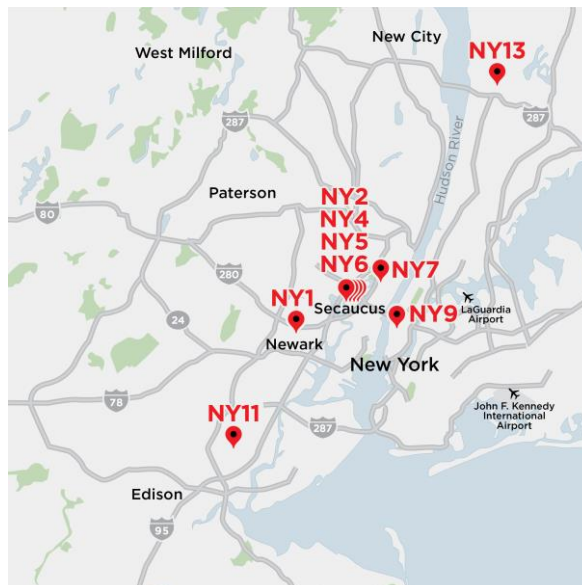

The New York colocation facilities enable customers to be part of a rich industry ecosystem. The New York region features a high concentration of customers in the financial sector for cloud providers targeting financial customers (e.g., data analytics providers) and a dense concentration of ad-tech companies directly connecting on Equinix's Ad-IX® advertising exchange. Our New York data centers are located in Newark (NY1), Bergen (NY7), Secaucus (NY2, NY4, NY5 and NY6), Manhattan (NY9), Carteret (NY11) and Elmsford (NY13) and service many of the world's largest companies, including financial services firms, large enterprises and media organizations.

New York Data Centers Benefits

- Customer population comprised of many financial services firms, media companies and large enterprises
- Dense concentration of ad-tech companies directly connecting on the Equinix Ad-IX advertising exchange
- Large ecosystem of financial firms, content providers and 115+ networks in the Equinix New York data centers
- Low-latency connectivity to major stock exchanges and financial institutions

Building

Space	
Colocation Space	60,234 ft ² (5,596 m ²)
Building Type	1-story, steel-framed building with precast concrete panel
Parking	Adjacent to the building (no charge)
Floor Type	Raised
Floor Load Capacity	250 psf (11.97 kN/m ²)

Flood Zone	
Flood Plan Info	Zone X (unshaded) = IBX elevation above the 500-year Base Flood Elevation

Fire Protection	
Fire Suppression	Non-aspirated (duct/ceiling-mount)/double-interlocked pre-action (dry pipe)

Facilities

Power and Cooling	
Cabinet Density	2.4 kVA per cabinet
Power Distribution	120V/208V
Utility Feeders	2
UPS Configuration	Parallel redundant
UPS Redundancy	N+1
Standby Power Configuration	3 x 2,000 kW diesel generators
Standby Power Redundancy	N+1
Cooling Configuration	Water-cooled chillers, CRAHs
Cooling Redundancy	N+1

Security	
Physical	Perimeter fence. Authorized vehicles only. Physical security monitoring and centralized control with the latest systems available. Valid ID and access authority required
Human	24/7 on-site security officers
Electronic	Biometric Readers, proximity access card, CCTV surveillance with 90-day video retention

Amenities

- Wifi
- Conference Room

Products and Services

Data Center

- Private Cage
