Silicon Valley IBX® Data Center

Equinix Silicon Valley Data Centers

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our Silicon Valley data centers are business hubs for 730+ companies. Our Silicon Valley customers can choose from a broad range of network services from 135+ providers. They can also interconnect directly with customers and partners in their digital supply chain.

Our Silicon Valley colocation centers serve the highest concentration of technology companies with the largest peering hubs in the world. Top software, IT, engineering, computer, internet content, and microprocessor companies use our Silicon Valley colocation facilities to distribute high-availability, high-speed digital services. Silicon Valley is also home to Equinix's corporate headquarters.

Silicon Valley Data Centers Benefits

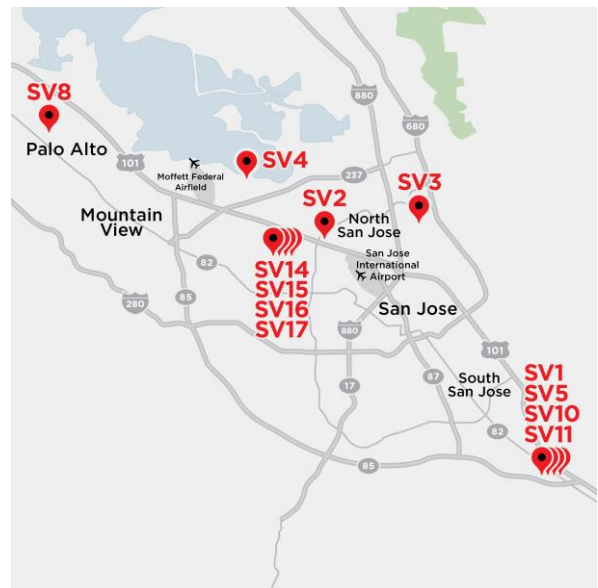

- Interconnections to one of the world's largest internet exchanges and peering
- Dense mix of top global networks, cloud service providers, digital content companies, and social media platforms
- Largest retail colocation footprint and densest interconnectivity in the Silicon Valley region, with many mature business ecosystems to match customers with the right business partners
- Direct connection available to Amazon Web Services
- Access to the two largest peering hubs in the Silicon Valley market
- International carrier connections, including China Telecom, AT&T and BT

Building

Space	
Colocation Space	6,512 ft² (605 m²)
Building Type	1-story, tilt-up concrete walls with roof as wood frame
Parking	Adjacent to building (for fee)
Floor Type	Raised
Floor Load Capacity	250 psf (11.97 kN/m²)
Fire Protection	
Fire Suppression	Non-aspirated (duct/ceiling-mount)/double-interlocked pre-action (dry pipe)

Facilities

Power and Cooling	
Cabinet Density	4.0 - 6.0 kVA per cabinet
Power Distribution	120V/208V
UPS Configuration	Distributed redundant
UPS Redundancy	N+1
Standby Power Configuration	3 x 1,000 kW diesel generators
Standby Power Redundancy	N+1
Cooling Configuration	Air-cooled chillers, CRAHs
Cooling Redundancy	N+1
Security	
Physical	Physical security monitoring and centralized control with the latest systems available. Valid ID and access authority required
Human	24/7 on-site security officers
Electronic	Proximity access card, biometric access control, CCTV surveillance with 90-day video retention

Amenities

- Break Room
- Conference Room
- Work Kiosks
- Wifi

Products and Services

Data Center

- Private Cage
- AC Power Circuits
- DC Power Circuits
- Antenna
- Equinix Flex Space

Interconnection

- Equinix Fabric®
- Equinix Internet Exchange®
- Equinix Internet Access
- Metro Connect®
- Cross Connects
- Fiber Connect

Digital Infrastructure

- Equinix Precision Time®
- Equinix Metal
- Network Edge

Services

- [Smart Hands®](#)
- Equinix Smart Build
- Equinix Smart View
