NEW CUSTOMER OR NEW LOCATION CAGE/CABINET BUNDLE

Valid on new quotes, Expires 12/31/2023

Need to add a new location or move to a highly redundant cloud-enabled colocation solution?

Not only does Evoque provide easy colocation options, but our cabinet and cage customers receive 15-25% discounts on Blended IP giving you reliable low latency internet connectivity.

Standard Cabinet & Cages

Simplify your deployment with fixed power costs. Each rack or cabinet comes with 5kW of usable power included at a fixed rate for the first year. Standard 45U high by 40" deep racks (cabinets 42" with lockable doors) support servers and appliances of all sizes. Cages include overhead basket tray to facilitate cabling between cabinets.

Interconnection Ports and Cabling (IPAC)

Reduce interconnection time with pre-installed Single-Mode Fiber cabling between your cage or cabinet and the Evoque Meet-Me-Room included standard, and choose from a wide variety of available carriers**.

Blended IP - Internet connectivity

Get 15-25% off the benefits of utilizing multiple ISPs, such as lower latency and improved resilience, with the ease of connecting to a single ISP through a simple layer-2 interface. Allowable bandwidth bursting includes up to 5x commit for surges in demand.

Remote hands

Focus on enhancing your business while our expert technicians handle physical adds and changes, server power cycling and more, without your team having to travel to our facilities.

No setup fee on cabinets or cages in available inventory, **while supplies last.**
