

## The InfoBunker Underground Data Center Complex

**\*Three Separate Levels Totaling Over 65,000 Square Feet**

**\*Purpose-built by the military to house sensitive telecommunications equipment & essential personnel**

**\*Constructed during the height of the 'Cold War' as a Continuation of Government command bunker**

**\*Upgraded with the best of modern commercial technology**

**\*Military-grade reliability provides the most secure and resilient location available**

**\*All Critical Infrastructure (HVAC Systems & Generators) resides within the hardened building**

**\*All systems are concurrently maintainable - eliminating downtime!**

# ULTRASECURE COLOCATION SOLUTIONS

## **Individual Fully Secured Racks -**

**Includes 10mbps Cogent Bandwidth and 1mbps BGP Blended Bandwidth;  
3-Circuit, 24-port Networked APC Power Bar; 20 amp, 120V Power Circuit & N+1 UPS.  
42U Racks Available from \$850 per month**

**Secured Private Suites & Vaults - Stand-Alone Data Suites Built to Your Specifications (Average Build 90 Days);  
Dedicated Room Cooling, FM-200 and N+1 UPS; SCIF / TEMPEST Available. 160 SF Minimum (5 Racks)  
Available from \$2,900 per month.**

**Disaster Recovery - Three Fully Dedicated Recovery Rooms – 30 Person Capacity; Phones, Network Jacks &  
Internet Available at All Workstations; Full Conference Room with 42" Display & Conferencing System for  
Meetings / Video Conference; Full Kitchen, Break Room & Shower Facilities; Fully Catered Meals &  
Ample Parking On-Site. Pay per person per day in event of disaster – No Monthly Fees or Reservation Fees**

**Custom DR & Operations Trailers - Standard Features include 40 Kva 480v Diesel Generator;  
Under-skirt storage compartments for DR supplies; Ample power bus (for even the most demanding data center needs);  
Redundant industrial cooling packages; Hydraulic equipment lift platform; External network jacks; UPS.  
Options can also include: Kitchenette; Larger fuel tanks; Radio & Satellite communications units; Restrooms;  
Sleeping quarters; Operations Center and Situation Screen**

**Dedicated Secure Hosting – Fully dedicated hardware (IBM BladeCenter HS Series Blades with 2 x Intel Xeon Dual Core  
3.0 GHz or Higher; 2 x 72 Gbyte SCSI 10K RPM Hard Drives; 4 Gbyte RAM. Includes: Cent OS, Full Root-Level Access,  
Unlimited Email Support, 4-Hour Hardware Replacement Guarantee, Unmetered Burstable Internet Up to 10mbits,  
Equal to 3.2TB, Customer Portal, Redundant Management, Power and Network Modules, UPS and Generator Power,  
Equipment Secured in Company Operated Racks, 1-year Minimum Contract Required**

**Other Services – LAN/WAN Connectivity, Workstation Replication (On or Off-Site), Wireless Broadband  
Remote Client Connections, Secure Conference Facilities & Amenities**

## RESILIENCY FEATURES:

### Power:

**“A” and “B” building power supply, 2-megawatt grid feed**  
**Three (3) 750 KW Turbine Standby Generators**  
**Redundant Uninterruptible Power Supply (UPS) Systems**  
**Two-Sided A/B Main Breakers**  
**Facility-Wide EMP Shielding**

### Fire Suppression:

**Automatic Fire Detection & Suppression**  
**Multi-Zoned FM-200 Clean Gas Systems Above & Below Raised Floors**  
**Halon Extinguishers & Dry Standpipe w/ 17,000 Gallon Freshwater Reserve**  
**Photoelectric & Ionization Smoke Detectors, HSSD Available**

### HVAC:

**Redundant Chillers & Air Handlers**  
**Hot / Cold Aisle Containment For Increased Efficiencies**  
**Optimized Plate Exchange Free Cooling (Green Cooling)**  
**Dedicated Room Humidity Control & 0.3 Micron Air Filtration**  
**Emergency NBC Filtration (Nuclear, Biological & Chemical)**

### Network:

**Multiple Datacom Providers From Multiple POPs**  
**Multiple, Geographically Diverse Fiberoptic Routes**  
**Triple-Redundant, Linked Core Routers**

**sales@infobunker.com**  
**800-679-3132**

**Network Operations**

**Client Recovery Suite**

**Secured Entrance**

## **Why InfoBunker?**

- \* An Unblemished Track Record of Unparalleled Resilience & Security Since 2006**
- \* Committed to Excellence & World-Class Customer Service**
- \* 100% Uptime – Guaranteed**
- \* Zero Scheduled Maintenance Outages**
- \* Zero Unscheduled Maintenance Outages**
- \* No Oversubscribing of Services - Ever.**
- \* Cost-Savings & Sustainability – Efficient By Design**
- \* Ask our Clients Why ! Testimonials & References Available**
