IRON MOUNTAIN® DATA CENTERS

BOSTON
DATA CENTER (BOS-1)

Situated on a 58-acre campus in the quiet Boston suburb of Northborough, Iron Mountain BOS-1 is a 21,000 ft^2 facility with 3.6 MW of power and significant potential to scale up. BOS-1 is sustainable and efficient: as well as offering 100% renewable power, it is Boston's first ever LEED Gold multi-tenant data center, using waterless cooling to save millions of gallons annually. BOS-1 provides customers with in-house access to a range of carriers as well as seamless low-latency cloud and carrier interconnection via the nearby 1 Summer Street strategic interconnection hub.

WHY CHOOSE BOS-1?

> **SUSTAINABILITY**
> 100% renewable power plus Boston's first LEED Gold multi-tenant data center

> **SCALABILITY**
> Room to grow both site and power capacity

> **CONNECTIVITY**
> Huge choice of clouds and carriers via regional MMR

" IT MAKES SENSE THAT WE WOULD PARTNER WITH A COMPANY THAT CAN PROTECT OUR INVESTMENTS AND ENABLE AN UNPARALLELED CUSTOMER EXPERIENCE. BY SELECTING IRON MOUNTAIN, WE ENSURE SKILLSOFT'S® CONTENT HOSTING SERVICES ARE INDUSTRY BEST-IN-CLASS IN BOTH SECURITY AND FUNCTIONALITY.

- SKILLSOFT
