IRON MOUNTAIN®

D A T A   C E N T E R S

Singapore Data Center (SIN-1)

Located in Serangoon, a 15-minute drive north from the Central Business District, our 154,000 ft² Singapore data center used to be a Credit Suisse facility. It is still operated to the same exacting standards with the addition of our own industry-leading compliance program. As well as housing a range of carriers on-site, the facility is close to multiple regional MMRs which can deliver low-latency access to hundreds of network, cloud and IT services providers.

> " IRON MOUNTAIN's physical site security, quality of service, customer support, and heritage in managing confidential data, allows nec® to position our sap hosting solution as a new level of cloud service for sap® public sector clients. "
NEC

Why choose SIN-1?

› **Connectivity**
Huge selection of carriers and cloud on-ramps in and around Serangoon.

› **Compliance**
The industry's most comprehensive compliance program.

› **Security**
Room to grow – phased scaling up to 2 MW
