

# Pune Data Center (PUN-1)

PUN-1 is located in Hinjewadi, a tech-rich suburb to the southwest of Pune, just 18 km from Pune International Airport in the heart of India's Maharashtra data center belt. The 50,186 ft<sup>2</sup>/2 MW carrier-neutral data center operates to the highest standards, with extensive physical security plus a range of third-party accreditations. The facility interconnects with MUM-1 and PUN-1, thus offering the rich network, cloud and service provider ecosystems including multiple on-site carriers, all major clouds, over 200+ ISPs and three major Internet Exchanges that MUM-1 provides.

“ A critically important aspect of our business case was finding a partner who not only met our renewable energy requirements but also understood what we were trying to do and could help us to achieve our goals. With Iron Mountain, we found a partner who could do all that – in ways that gave us a competitive advantage.”

Akamai

## Why choose PUN-1?

- > **Connectivity**  
Diverse inter-connection fiber paths between MUM-1 and PUN-1
- > **Scalability**  
Room to grow - phased scaling up to 2 MW

# Pune

## Data Center (PUN-1)

Our PUN-1 campus is suitable for all network, content and enterprise customers, with a comprehensive range of secure space options, sector-specific standards, and power configurations.

### Services

- > Smart Hands
- > Migration
- > Cross Connects
- > IP Transit
- > Metro Wave
- > Peering
- > Cloud On-Ramp

### Interconnection

- > Carrier and cloud-neutral for a thriving ecosystem
- > All major cloud providers, SDNs, CDNs, IXs and global tier 1 networks
- > Huge range of global and regional networks
- > Hundreds of ISPs and MSPs

### Quick Reference Guide for PUN-1

| Campus                           | Data Center                | Interconnection           |
|----------------------------------|----------------------------|---------------------------|
| IMDC Web Werks facility          | 50,186 ft <sup>2</sup>     | 7 leading carriers        |
| 1.2-acre site                    | 160 KW (Phase 1)           | Easy cloud access         |
| Excellent transport links        | 2 MW (Phase 2)             | 200+ ISPs                 |
| Phased scale-up                  | 6 physical security layers | DE-CIX, Extreme-IX & NIXI |
| 18 km from International Airport | Redundant MMRs             |                           |
