

Hyderabad Data Center (HYD-1)

Hyderabad is a major pharmaceutical, biotech and technology hub, and is an important and fast-growing data center market in the center of India. Located in the Kondapur region in Hyderabad, our Tier III HYD-1 data center provides 120,000 ft² (11,100 m²) of highly compliant colocation space with a 5.5 MW IT load covering its first buildout phase. It offers local and international customers the highest global security and redundancy with efficient operations, easy cloud and carrier access and advanced interconnection services.

“ With Iron Mountain, we have a highly available, redundant computing environment for the cloud ... that helps us meet customer demand today and allows us to expand quickly to support business growth tomorrow. ”

Logicalis

Why choose MUM-1?

- > **Ecosystems**
Rich customer ecosystems with a huge range of ISPs and managed service providers
- > **Interconnection**
Easy access to regional and global networks and public clouds
- > **Scalability**
Power and space to grow

Hyderabad

Data Center (HYD-1)

Our Hyderabad campus is suitable for hyperscale, network, content and enterprise customers, with a comprehensive range of secure space options, sector-specific standards, and power configurations.

Services

- > Smart Hands
- > Migration
- > Cross Connects
- > IP Transit
- > Metro Wave
- > Peering
- > Cloud On-Ramp

Interconnection

- > Carrier and cloud-neutral for a thriving ecosystem
- > All major cloud providers, SDNs, CDNs, IXs and global tier 1 networks
- > Huge range of global and regional networks
- > Hundreds of ISPs and MSPs

Quick Reference Guide for HYD-1

Campus	Data Center	Interconnection
IMDC Web Werks facility	Uptime Tier III	Easy carrier access
Located at Kondapur	120,000 sqft/11,100 m2/5.5 MW	On-ramps to all major clouds
Excellent transport links	Multiple security layers	Wide range of IT services
Diverse power supplies	Redundant MMRs	AMS-IX planned
