

# Mumbai Data Center (MUM-2)

One of India's newest data centers, MUM-2 is in Navi Mumbai, where international submarine cables connect with the Indian subcontinent. The purpose-built 120,000 sqft, 6.3 MW carrier-neutral data center operates to the highest global standards, with extensive security and built to Uptime Tier III standards. Located next to IMDC MUM-1, MUM-2 shares access to a huge network, cloud and service provider ecosystem including multiple on-site carriers, all the major clouds, over 200 ISPs and three major Internet Exchanges.

“ With Iron Mountain, we have a highly available, redundant computing environment for the cloud ... that helps us meet customer demand today and allows us to expand quickly to support business growth tomorrow. ”
