Meta's Los Lunas Data Center

The Los Lunas Data Center is part of Meta's global infrastructure that brings our technologies and services to life.

~$2B
Data center investment
in New Mexico

2016
Broke ground on the
Los Lunas Data Center

400+
Operational jobs supported
once completed

1,100
Skilled trade workers on site at
peak construction

$4.1M+
Direct funding to Valencia County
area schools and nonprofits

185+
Grants and sponsorships provided
locally since 2019

We prioritize sustainability

Meta will be water positive in 2030, where we restore more water than we consume.

Meta-supported projects are adding 775MW of new renewable energy and 100 MW of battery storage in New Mexico.

Our global operations, including our data centers and offices, are supported by 100% renewable energy and have reached net zero emissions.

Meta's global fleet of data centers support our technologies that empower more than 3 billion people around the world to share ideas, offer support and make a difference.

Partnering with New Mexico

We are committed to supporting the community through hiring people to build and operate our data center, volunteering and supporting local schools, nonprofits and community projects.

Supporting local schools and nonprofits

One way we support the community is through our annual Data Center Community Action Grants program and other direct funding for projects that put the power of technology to use for community benefit, connect people online or off and improve STEM education.

New renewable energy investments

Meta worked with the Public Service Company of New Mexico (PNM) to meet our 100% renewable energy goals. We will support 11 new renewable energy projects and two battery storage projects in New Mexico, and helped create a renewable energy program for customers looking to meet their renewable

Minimizing water use

We are proud to build some of the most sustainable data centers in the world and prioritize onsite water efficiency.
The Los Lunas Data Center:

- Uses cooling technology that is significantly more efficient than the industry standard.
- Reuses water numerous times before discharging it as wastewater.
- Is landscaped with native and drought resistant vegetation.
- Reuses reclaimed water for construction through a partnership with the Village of Los Lunas.

Water restoration

Our goal is to restore more water into local watersheds in New Mexico than we consume by supporting water restoration and conservation projects led by local community partners, including:

- Audubon Southwest
- Forest Service Foundation
- The Nature Conservancy
- Trout Unlimited

We're proud to support projects led by:

Belen Consolidated Schools

Belen Public Library

CASA Partners4NM Kids

Explora Children's Science Center

Friends of Whitfield Wildlife Conservation Area
