COGECO PEER 1 DATA CENTERS:

Scalable, Flexible, Reliable
Los Angeles Data Center

Count on the Los Angeles Data Center as part of your ideal hybrid colocation infrastructure

The Los Angeles Data Center is your hub for West Coast, Asia-Pacific, and worldwide connectivity. Conveniently located in downtown LA, this facility is well served by major freeways, Metrolink, and metrorail systems and is a short 25-minute drive from the Los Angeles International Airport (LAX). The Los Angeles Data Center features over 5,000 sq. ft. of high capacity generators, advanced temperature control, state-of-the-art fire suppression, and 24x7 onsite staffing.

MAXIMUM FLEXIBILITY
The Los Angeles Data Center provides the design flexibility you need as your business grows and IT becomes more complex. The facility provides plenty of additional power and bandwidth capacity to accommodate advanced applications and sophisticated hybrid infrastructure.

CERTIFIED AND RELIABLE
We bring peace-of-mind full circle with our wholly owned Network Operations Center that routes traffic around latencies, fully redundant switching architecture for true Non Stop Routing and In Service Software Upgrade, and state-of-the-art security protocols that protect against physical and virtual threats.

24X7 PERSONALIZED SUPPORT
Our Smart Hands & Eyes service is available 24x7 at the Los Angeles Data Center. Our highly skilled onsite IT professionals will act as your "hands and eyes," closing the distance between you and your colocated IT equipment, and reducing the need for you to personally visit the facility.

If you're seeking proven scalability, flexibility and reliability, count on the Los Angeles Data Center for your colocation needs.

BUILDING DETAILS
- Data center operational capacity: 5,000 sq. ft.
- Connected to proprietary FastFiber Network®
- Customers can bring their own cabinets upon approval

COOLING
- State-of-the-art climate control systems
- Closed loop water condenser system
- 12 hours of water tank runtime
- All components are N+1
- Temperature/humidity monitored
- Hot/cold aisle setup

SECURITY
- 24x7 on-site security presence
- 24x7 unescorted customer access
- Centralized card access control system with dual factor biometric authentication
- Advanced video surveillance with at least 90 days of retention

POWER
- Generator N+1 redundancy
- Basic PDU's provided

CONNECTIVITY
- Direct access to low latency, reliable and redundant connectivity
- POD connected to our proprietary FastFiber Network®
- 100% core network uptime SLA ensures you are always online
- Next generation high performance IP/MPLS global network
- Multiple entry points for communication
- All network equipment is supported by UPS and generator power systems

COMPLIANCE
- SOC 1 Type 2 audited for colocation services
- PCI v3.2 certified for colocation services

EMERGENCY PREPAREDNESS
- 24x7 Smart Hands & Eyes availability for customers' technical assistance needs
- 4 diesel generator supplying 1.5MW each
- On-site fuel: minimum 12 hrs on full load
- Fire suppression systems: Double interlocked pre-action dry pipe system

AMENITIES & FAQS
- Shipping and receiving services available
- Freight elevator
- On-site pay parking

ADDITIONAL SERVICES
- Connectivity Services
- Hosting Solutions
- Cloud Services
- Managed Services: Smart Hands & Eyes
- Security Services

Building specifications

HEIGHT MEASUREMENTS	
Slab-to-Slab	15 ft.
Ceiling	15 ft.
Total size of floor space:	5000 sq. ft.

*Cage space available on request and approval.
Custom cabinet sizes possible.*

DESIGN FLEXIBILITY	
Space configuration	Rack/Cabinet
Module	Custom Cabinets
Cabinets available	32"W x 46"D (42RU)
Floor load	Live load 100-125 lbs. per sq. ft.

Why Cogeco Peer 1 Colocation Services?

INTERNATIONAL FOOTPRINT

Spanning North America and Europe, our international footprint of 12 colocation data centers are seamlessly connected, allowing you to access, manage and move large amounts of data worldwide on our wholly-owned, all-optical network and FastFiber Network®.

FLEXIBLE AND SCALABLE

In the world of colocation, scalability means the ability to add power, cooling and space as required and on demand, including advanced connectivity options. Our colocation facilities offer sufficient density capabilities, allowing you to upgrade in place as your infrastructure requirements grow.

COMPLIANT AND SECURE

When it comes to security, we exceed every standard. Our Privacy Shield certification enables us to legally transfer personal data from the EU to the United States while meeting EU data protection requirements.

ALWAYS THERE FOR YOU

Our global Network Operations Center (NOC) experts support customers 24x7x365, continuously monitoring and rerouting data for optimal low-latency routes. Likewise, our Smart Hands & Eyes services provide you with a team of highly trained IT professionals to assist with the day-to-day maintenance of your mission-critical infrastructure, also available 24x7x365.

Important workloads demand security, availability, compliance and connectivity. Cogeco Peer 1 is a colocation partner you can count on to deliver it all.

ABOUT COGECO PEER 1

Cogeco Peer 1 is a wholly-owned subsidiary of Cogeco Communications Inc. (TSX:CCA) and is a global provider of essential business-to-business products and services, such as colocation, network connectivity, hosting, cloud and managed services that allow customers across Canada, Mexico, the United States and Western Europe to focus on their core business. With 16 data centers, extensive FastFiber Network® and more than 50 points of presence in North America and Europe combined, Cogeco Peer 1 is a trusted partner to businesses small, medium and large, providing the ability to access, move, manage and store mission-critical data worldwide, backed by superior customer support.
