Mission & Vision

MISSION

Serverwala Cloud Data Centers Pvt. Ltd. Mission is to provide the best solution to its clients with Flexibility, Scalability, & Affordability. We Aim to offer the best services and support to our clients as per their requirements.

VISION

With The mission, our vision is to deploy servers instantly. We intend to improve the client experience by deploying a cloud server within 30 sec, VPS/Dedicated within 30 min & a Colocation Server Within 3-4 Hrs.
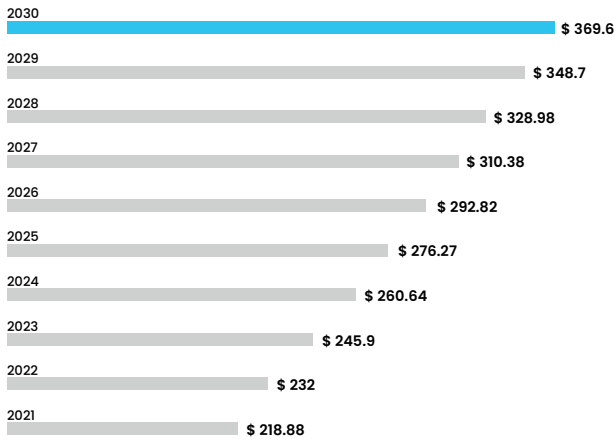

EXPANSION GOALS

From 2016 - 22 we expanded our data centers network to 40+ locations worldwide. And in the upcoming years, we are looking forward to further expanding it to 25 more countries.

Future Growth Chart

The Data Center Industry Has a Huge Growth Potential in The Coming Years.

DATA CENTERS

Year	Value
2030	$ 369.6
2029	$ 348.7
2028	$ 328.98
2027	$ 310.38
2026	$ 292.82
2025	$ 276.27
2024	$ 260.64
2023	$ 245.9
2022	$ 232
2021	$ 218.88

Data Center Construction Market Size, 2021 to 2030 (USD Billion)

CLOUD COMPUTING

Year	Value
2030	$ 1614.10
2029	$ 1374.57
2028	$ 1170.59
2027	$ 996.88
2026	$ 848.95
2025	$ 722.97
2024	$ 615.68
2023	$ 524.32
2022	$ 446.51
2021	$ 380.25

Cloud Computing Market Size, 2021 to 2030 (USD Billion)

EDGE COMPUTING

Year	Value
2030	$ 116.5
2029	$ 103.59
2028	$ 92.11
2027	$ 81.91
2026	$ 72.83
2025	$ 64.76
2024	$ 57.59
2023	$ 51.2
2022	$ 45.53
2021	$ 40.49
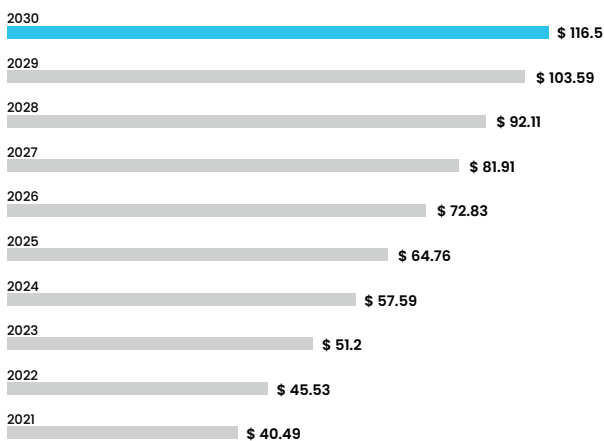

Edge Computing Market Size, 2021 to 2030 (USD Billion)

GRAPHIC PROCESSING UNIT

Year	Value
2027	198.77

Products & Services

We Offer a Comprehensive Range of Products and Services To Meet All Your Business Needs.

VPS SERVER

Our VPS server is the virtualized and affordable option available to acquire a powerful and scalable computing system with 100% SSD data storage

DEDICATED SERVER

Choose our bare-metal dedicated server to acquire control over the independent hosting environment and employ the entire server just as you desire.

PRIVATE & PUBLIC CLOUD

You can acquire private and public cloud to construct your online presence with secure networking channels, high-level data protection, and superior customer assistance.

STREAMING SERVER

Our streaming servers provide a cost-efficient solution for dynamic workloads that require extensive hardware resources. With our highly scalable hardware, you can expand the processors, bandwidth, storage, and RAM resources as you need them.

IP TRANSIT

We offer reliable, high-performance, and cost-effective IP Transit solution based on multi-homed and Border Gateway Protocol (BGP) enabled platforms.
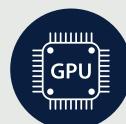

CLUSTER SERVER

Have multiple hosting servers grouped for balancing unlimited load and attaining upgraded services. Our cluster server enables the customer application to process easily without network failure.

GPU SERVER

Our GPU servers come with resilient technology that provides 100% accuracy. They are fully optimized to deliver perpetual security, the fastest speed performance, and hyper-scale security.

COLOCATION

At Serverwala data centers, you obtain maximum power supply, highest uptime network, instant deployment, robust security, and rapid cooling with a Colocation facility.

BACKUP SERVICE

We are the official partner of Acronis and offer backup services at minimal pricing to ensure the complete security of your sensitive data.

MANAGED SERVICE

With the Managed Services, Serverwala provides the active and intricate administration of your server's base setup that incorporates major aspects such as OS installation, network maintenance, etc.

Our Datacenter & Network

We Have Partnered With Some of The Leading Companies Across The Globe To Deliver Incredible Business Solutions.

Data Center

We Are The Official Partners of The Following Data Centers.

CyrusOne	YOTTA	STTelemedia Global Data Centres
HURRICANE ELECTRIC INTERNET SERVICES	INAP	IRON MOUNTAIN®
