

DATA CENTER SERVICES

CO-LOCATION

Host your servers and IT infrastructure in our enterprise class datacenter and experience the benefits of our redundant 2N+1 network, power, and cooling. Co-locating in our datacenter will allow you to focus more on your business and less on your network infrastructure.

- 1U, 2U, 4U
- 1/4 Cabinet
- 1/2 Cabinet
- Full Lockable Cabinet (47U)
- Suites

SERVERS

Don't have enough time to manage your hardware? Different from co-location, we take hardware management out of the picture. We provide all of the needed OS and software patching, 24x7x365 monitoring, DNS services, and nightly off server data backups for all of our Dedicated Servers.

- Dell PowerEdge Servers
- Full Hardware Replacement
- 24x7x365 Monitoring
- SAN

VIRTUAL PRIVATE SERVERS

Why go to the virtual cloud? Do you want all of the features of a dedicated server without the cost? Virtual Environments allow you to run Windows and Linux environments with less of a risk of hardware failure. For even more reliability, we offer the ability to restore and snapshot an environment in minutes.
