Facilities and Security

- Tier II/III data center
- Biometric and card key entry
- 24x7x365 surveillance, monitoring & recording
- 24x7x365 access breach notification
- 18" raised floor design
- Seismic Zone 4 Framed Bracing (highest of any data center in Puget Sound)
- FM-200 fire suppression above and below floor
- Regional facility diversification for redundancy (10 min South and 10 min North of downtown)
- Close to SeaTac International Airport and both main Highways I-5 and I-405
- Easy access and free parking

Connectivity

- Loop transport to the Westin (Seattle's main point of presence)
- Multiple private fiber entries at each facility (each scalable to 10Gb+)
- 100% service level guarantee
- Carrier neutral to multiple Tier 1 providers
- Full Cisco core and network design
- Multi-redundant core routing
- Full BGP routing
- Seattle Internet Exchange (SIX) peering
- Unrestricted 10/100/1000 ports available
- Tier 1 providers include (but not limited to) MCI/UUnet, Abovenet, Time Warner, Savvis, Sprint, Level 3, Cogent

Power and Cooling

- A/C Power with dual utility feed through PSE (#6 greenest in the US, #1 in Washington State)
- Dedicated 1+MW power grid
- Automatic diesel generator with over 72 hours of runtime and priority fuel agreements
- Fully scalable 3-phase UPS system with automatic failover, checking, and monitoring (over 60 min battery time)
- Efficient hot isle/cold isle cooling design
- N+1 redundant cooling systems
- Dual cooling and humidity control systems
- Clean air exchange for a higher efficiency
- Temperature and humidity monitored 24x7

Services

- Colocation - from 1U, to half and full rack, to dedicated cage space
- Dedicated and Managed Servers
- Disaster Recovery for Data Loss Prevention and Infrastructure Redundancy (cold, warm, and hot sites)
- Connectivity - Bonded-DSL, T1s, Campus fiber, DSL, and more
- Cloud Services - infrastructure support
- Hosting - from basic to large corporate and e-commerce sites
- VOIP - business class QoS dedicated VOIP
- IT Services - remote, assessment, & assignment
- Web Devlopment - basic to full programming
